OVERVIEW

Cyber resilience is a posture, not a product. Black Fox builds layered defenses, hunts threats inside your perimeter, and responds when the rest of the industry is still triaging tickets.

CORE COMPETENCIES

- Risk & Compliance — RMF, FedRAMP, CMMC 2.0, and SOC 2 packages produced by assessors who have signed packages on the federal side.
- Threat Hunting & SOC — Managed detection and response with named analysts and ATT&CK coverage maps.
- Penetration Testing — Black-, gray-, and white-box assessments — including red-team engagements signed by leadership.
- Incident Response — Retained IR and forensic readiness with a 1-hour engagement SLA.

DIFFERENTIATORS

- Senior, cleared people on contract — never a junior bait-and-switch.
- Written commitments at every milestone, with documented rollback paths.
- Self-perform on the critical path; vetted partners on the rest.
- Past-performance references furnished on qualified inquiries within 48 hours.
