

IT DISASTER RECOVERY

CAPABILITY STATEMENT · BLACK FOX GROUP

BLACK FOX GROUP

50 Hurt Plaza SE, Suite 1442, Atlanta, Georgia 30303 · (202) 454-7650 · info@blackfoxgroup.com · www.blackfoxgroup.com

OVERVIEW

An IT disaster recovery program is a promise to the business. Black Fox engineers DR architectures that hit the RTOs and RPOs you actually need — and we test them often enough to trust the answer.

CORE COMPETENCIES

- DR Strategy & Architecture — Pilot-light, warm-standby, and active-active designs across cloud, on-prem, and hybrid topologies.
- Backup & Data Protection — Immutable backups, ransomware-resilient storage, and air-gapped vaults with periodic recovery validation.
- Failover Automation — Runbook-as-code orchestration that performs failover and failback as a button-press.
- DR Testing — Quarterly tabletop, semi-annual functional, and annual full-scale failover with documented evidence.

DIFFERENTIATORS

- Senior, cleared people on contract — never a junior bait-and-switch.
- Written commitments at every milestone, with documented rollback paths.
- Self-perform on the critical path; vetted partners on the rest.
- Past-performance references furnished on qualified inquiries within 48 hours.
